

Dan McCarthy

Austin, TX • (512) 921-4157 • danshandle@gmail.com

PROFESSIONAL SUMMARY

Customer-facing SaaS implementation and customer success professional with 8+ years of experience helping enterprise and mid-market customers adopt new technology, optimize workflows, and navigate complex onboarding and rollout processes. Skilled at translating technical concepts for non-technical stakeholders, managing concurrent implementation pipelines, and partnering cross-functionally across Sales, Product, Operations, and Support. Hands-on builder of AI-enabled SaaS products and LLM-powered automations, with a practical, data-curious approach to process improvement and customer enablement.

EXPERIENCE

Indeed Flex | Partner Success Manager

Dec 2024 – Mar 2026 | Austin, TX

- Owned end-to-end onboarding for enterprise staffing partners on a national SaaS marketplace, serving as the primary point of contact from contract signed through go-live and beyond
- Managed concurrent implementation pipelines, triaging integration issues, missing assets, operational blockers, and customer escalations while coordinating across internal stakeholders to drive resolution
- Delivered training and enablement sessions to partner teams with varying levels of technical comfort, reinforcing platform best practices and improving early adoption
- Analyzed onboarding and operational performance trends to identify recurring bottlenecks, improving SLA attainment from the low-80s to 95%+
- Maintained detailed implementation documentation, status reporting, and go-live risk tracking for Sales and leadership teams
- Helped customers optimize workflows and operational usage patterns through consultative support and ongoing partnership management

Crowdstake Global | Director of Business Development

May 2024 – Dec 2024 | Austin, TX

- Managed onboarding and activation for new accounts across a high-volume SaaS pipeline, owning the customer journey from closed-won through first successful use
- Built and maintained HubSpot workflows, lifecycle tracking, reporting cadences, and operational dashboards to improve visibility across customer accounts
- Worked directly with customers to troubleshoot onboarding friction points and improve platform adoption

RFD & Associates | Account Manager

Jul 2019 – Apr 2024 | Austin, TX

- Managed a portfolio of enterprise and public-sector SaaS accounts over five years, owning onboarding, adoption, renewals, and expansion efforts
- Maintained 93% retention through proactive account management, operational problem solving, executive communication, and structured business reviews
- Coordinated across Product, Support, and Operations teams to resolve technical blockers and ensure implementations stayed on track
- Produced onboarding wrap reports, customer success summaries, and operational performance documentation for internal and client-facing stakeholders
- Consulted with customers on process improvements and technology adoption strategies to improve efficiency and long-term account health

Hometown Hero | Sales Manager

Jun 2017 – Jul 2019 | Austin, TX

- Built onboarding and activation workflows for new B2B accounts, designing training collateral and follow-up cadences to drive adoption and customer retention
- Coached a team of reps on customer communication, operational consistency, and platform enablement in a fast-moving, high-growth environment
- Worked closely with operational leadership to improve reporting visibility and sales process execution

Eva Street Advisors | Client Development Manager

Jan 2016 – May 2017 | Austin, TX

- Managed client onboarding and enablement for a professional services firm with high standards for responsiveness, organization, and customer communication
- Prepared training agendas, onboarding materials, and follow-up communications to support smooth client launches and long-term satisfaction
- Used CRM and SQL-based data segmentation workflows to support outreach prioritization and pipeline management

PROJECTS

Scout Industries | Founder

2025 – Present

- Built and launched three AI-enabled SaaS platforms (ScratchScout, PourScout, PriorScout) using Next.js, Firebase, Vercel, Stripe, and LLM integrations
- Designed onboarding flows, workflow automations, and user enablement systems firsthand, developing strong intuition around customer adoption and onboarding friction points
- Integrated AI-assisted workflows and natural language functionality into customer-facing products to improve usability and operational efficiency

TriviATX | Host & Organizer

2019 – Present

- Produce and host a weekly trivia event series in Austin, managing venue coordination, scheduling, customer communication, and live event operations independently
- Built long-term relationships with hospitality venues and managed recurring customer-facing operations in fast-paced service environments
